## CEMENT IN NOVEMBER 2019

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2018 through November 2019.<sup>1</sup> Data on the imports of cement and clinker for November 2019 also are provided.

Total shipments of portland and blended cement, including imports, in the United States and Puerto Rico in November 2019 were 7.9 million metric tons (Mt), a slight increase from shipments in November 2018 (tables 2A and 2B). Shipments for the year through November totaled 94.4 Mt, an increase of 3.4% from those for the same period in 2018. The leading producing States for portland and blended cement in November 2019 were, in descending order, Texas, Missouri, California, Florida, and Alabama (table 1A). The leading cement-consuming States (Texas, California, Florida, Ohio, and Georgia) received 40% of November shipments (tables 2A and 2B).

Masonry cement shipments totaled 172,000 metric tons in November 2019, essentially unchanged from those in November 2018 (table 2C). Shipments for the year through November totaled 2.2 Mt, a slight decrease from those for the same period in 2018. The leading masonry-cement-consuming States in November 2019 were, in descending order, Florida, Texas, California, North Carolina, and Tennessee; these States received 58% of November shipments (table 2C).

Clinker production, excluding Puerto Rico, totaled 7.1 Mt in November 2019, an increase of 11% from production in

November 2018 (table 4). Production for the year through November totaled 72.3 Mt, an increase of 2.4% from the same period in 2018. The leading clinker-producing States in November 2019 were, in descending order, Texas, California, Missouri, Florida, and Pennsylvania; these States accounted for 51% of clinker produced.

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal-entry basis. Likewise, reported imports of cement into the El Paso, TX, district may be missing significant informal entries from Mexico. Monthly imports can show significant year-over-year changes for a variety of reasons and commonly do not correlate well with consumption levels in the respective import districts in the same month. November 2019 imports of cement and clinker totaled 1.2 Mt, an increase of 16% from imports in November 2018. Imports for the year through November totaled 15.1 Mt, an increase of 8.1% from those for the same period in 2018.

*List services and web feed subscribers are the first to receive notification of USGS minerals information publications and data releases. For more information on how to subscribe, go to <https://www.usgs.gov/centers/nmic/minerals-information-publication-list-services>.*

<sup>P</sup>Preliminary.

<sup>1</sup>Data are unrounded but are thought to be accurate to no more than three significant digits.

<sup>2</sup>Includes cement manufactured from imported clinker.

<sup>3</sup>Data may not add to totals shown because of independent rounding.

<sup>4</sup>As reported by domestic and Canadian cement manufacturers and other importers.

<sup>P</sup>Preliminary.

<sup>1</sup>Data are unrounded but are thought to be accurate to no more than three significant digits.

<sup>2</sup>Includes imported cement and cement manufactured from imported clinker.

<sup>3</sup>As reported by domestic and Canadian cement manufacturers and other importers.

<sup>4</sup>Data may not add to totals shown because of independent rounding.

-- Zero.

<sup>1</sup>Data are unrounded but are thought to be accurate to no more than three significant digits.

<sup>2</sup>Includes imported cement and cement manufactured from imported clinker.

<sup>3</sup>Blended cement defined per ASTM standard C595.

<sup>4</sup>Includes U.S. possessions and territories.

<sup>5</sup>Data may not add to totals shown because of independent rounding.
